INTRODUCTION

SERVICES:

Professional sales executives:

Knowledgeable account representatives take off blueprints, make job checks and offer expert assistance in the use of millwork to produce architectural detail on every project. Each representative has an in house sales partner who enter quotes and orders, tracks order status and responds to customer questions.

Computer assisted design and drafting:

Our designers utilize CAD systems for more complicated projects so that the customer can review precise illustrations to better visualize the final product. Therefore, upon final approval, the same drawings, in turn, ensure accurate production.

Professional delivery team:

Our delivery personnel safely unload trucks, verify the accuracy of deliveries, review storage, and look for potential problems associated with our product and jobsite conditions.

Sales office and showroom:

Hines Quality Custom Millwork serves the entire Chicagoland region. Our production facility sales office and showroom are located in South Chicago Heights.

Environmentally sound products:

We can provide a FSC logo on any manufactured product guaranteeing that the products were manufactured using hardwoods logged in an environmentally sound manner.

Internet services:

Please visit our website (www.hineslumber.com) for a comprehensive source of architectural millwork information.

First, view our complete line catalog which is frequently updated with new graphics and images.

Secondly, our information section to aid in design and application decisions. From our extensive project detail library, we can provide resource files in either .dxf or .dwg formats of any catalog drawings as well as other designs.

Third, we invite you to review our literature listings of pertinent information regarding architectural building and millwork.

Finally, our partnerships. Links to the many other quality manufacturers, distributors and institutions that we proudly represent.

Thank you for your interest in Hines Quality Custom Millwork. If you would like a salesperson to call you or would like our complete catalog, please call.
